

PPE FACE SHIELD

WITH FULLY CLEANABLE PLASTIC HEADBAND

Designed and Manufactured in the UK by **DISPLAYMODE**

COVID-19
PREVENTION

Why Buy This Face Shield?

We have a range of three face shields, and this one has been designed after feedback from front line healthcare staff.

They wanted something that they can clean fully - so this uses no foam and no elastic.

The whole visor and head strap can be cleaned and the shield reused multiple times.

LET'S PROTECT OUR **NHS**

Benefits

Fully Cleanable

By not using elastic or foam, all parts of this face shield can be cleaned. Simply use a cleaning wipe or spray.

This makes the face shield suitable for multiple uses by the same person

Adjustable Fit

The polypropylene head band can accommodate a range of sizes by using the simple mechanism.

A set of instructions comes with the shipment.

Comfortable

Manufactured with flexible materials, the face shield is comfortable to wear for prolonged periods.

The design allows for masks and most glasses to be worn under the shield.

Visor Dimensions when Flat - Width: 365mm Height: 230mm

Standards and Certification

The product complies with the standard required to meet EN 166:2002 in terms of visibility, safety and comfort for their intended purposes. The test report, from the UKAS accredited laboratory, is available on request.
